Blinds Direct

Activity, people & shot history

3	25	136
TIMELINES	SHOTS · INCLUDING HIDDEN	PRODUCTION EVENTS

This report covers 25 shots across 3 timelines, including 10 hidden shots. It follows task assignments, status changes and recorded conform/render updates.

TEST REPORT · Database snapshot, not delivery certification. No AI-generated interpretation.

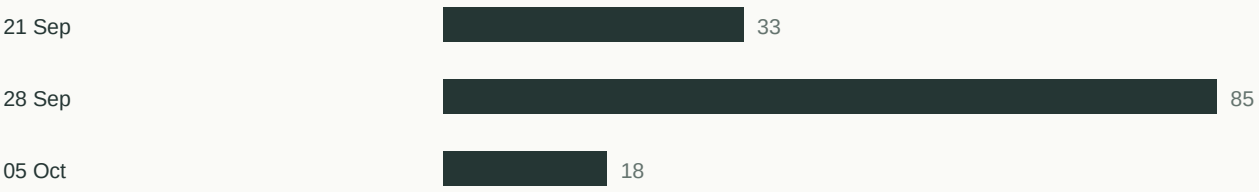

Recorded activity: 21 Sep 2026 – 28 Oct 2026.

Generated 29 Oct 2026, 16:39 GMT.

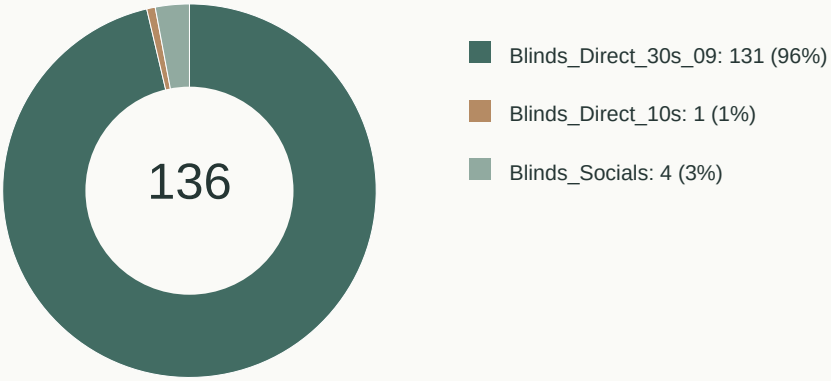

01 / Production activity

Charts count recorded changes, not working hours or effort. All timelines and hidden shots are included.

Production events by week

Where activity happened

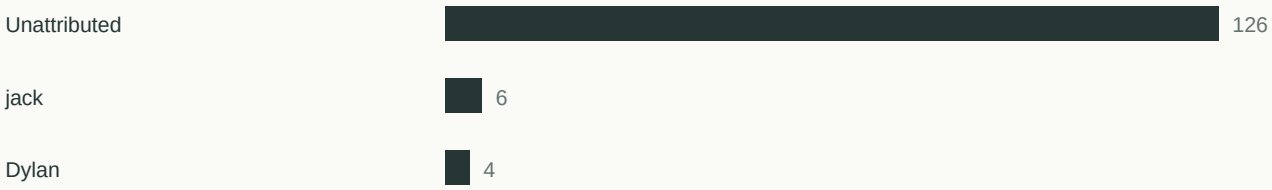

Types of production activity

Included: task creation/deletion, assignments, status changes, conform and render updates. Excluded from charts: notes, colour, duration, shot creation and visibility edits. A conform update is not necessarily a new render or client revision.

02 / People & record quality

Recorded actions by author

Current task assignments

Artist	Assigned tasks	Approved / done
Dylan	5	5
Kieran	5	4
Unassigned	12	12

How to read this report

206 of 230 total activity records have no recorded author. Assignment history names the assigned artist; it does not identify who performed an action. Neither chart is a productivity ranking.

Shot cards show current tasks and recorded historical assignments. Hidden tasks are labelled. Deleted tasks may still contribute activity but are absent from the current task list.

Activity spans run from the first to last recorded event on each shot and can include later administrative edits. They do not measure hours worked. No work-time estimates are made.

Task titles and notes are kept literal. Approval applies to individual tasks; a shot without tasks is not assumed approved. Latest conform filenames are recorded references, not verified delivery files.
